

Entrance Test Guidance for Parents

What is covered in the assessment?

The assessment is an online exam. It is composed of Maths, English and Verbal Reasoning.

The **Maths and English** sections are based on the **National Curriculum** (up to the end of Year 5 for the 11+). They assess your child's ability to recall what they have been taught and apply this knowledge to solve problems.

The **Verbal Reasoning** section is designed to test your child's **academic potential**. They assess your child's ability to solve problems with written or visual information.

Part 1	Maths	English	Verbal Reasoning
What is being assessed?	Arithmetic Mathematical reasoning	Reading comprehension Spelling Punctuation Grammar	Vocabulary Pattern-spotting Logic

Is the assessment adaptive and what does this mean?

The assessment is adaptive. This means that questions will get harder or easier as a child moves through the assessment. This ensures that each question is at the right level of difficulty for each student.

Please note, students will not be able to skip or go back to any questions. They will also be unable to change any of their answers.

How long is the assessment?

The assessment takes a total of 60 minutes altogether. The timings of each subject component are:

Part 1	
Maths	30 minutes
English	20 minutes
Verbal Reasoning	10 minutes

During the assessment, students will see a **timer** on their screen showing them how long they have left for each section. It will be visible but not so large as to distract them from their work.

Students eligible for **extra time** will be asked to indicate their entitlement at the point of application to Wolverhampton Grammar School. Where extra time is approved for a student, the additional time will be automatically added to the timer visible on their screen for each section of their assessment.

How to prepare for the assessment

We recommend that all students look at the familiarisation materials provided:

<https://app.atomlearning.com/public/taster/wolverhampton-grammar-school>

The assessment will test the knowledge and skills highlighted in the **Key Stage 2 National Curriculum**. Students will develop these skills as part of their school education, so they will not need any special tuition or intensive practice.

FAQs

Is the assessment multiple-choice?

The majority of questions will be **multiple-choice**, with only a few questions requiring a student to type a single word or number. There is no extended typing exercise required, so typing ability will not impact results.

What device can be used for the assessment?

The assessment will be taken on a PC in School.

What can my child use during the assessment?

Students will be permitted blank scrap paper and a pencil/pen in all subjects for any working out. Students may not use any other additional materials during any stage of the assessment, e.g. dictionaries, thesauruses, calculators, rulers, mobile phones, etc.

My child is an overseas applicant. Where will they take the assessment?

If you currently live overseas and you are moving to the UK, please contact our Admissions team to find out how to proceed. It may be possible to take the assessment under exam conditions at your current school.
